Replacement Workstands & Upgrades

In addition to the regular workstands, Auto Sleep Workstands and Cradles are now available. These new stands help extend tip life by reducing the temperature when the hand-piece is idle in the work stand.

WORKSTAND ITEMS	
Part No.	Description
MFR-WSPT	Tweezer Workstand
MFR-WSSR	Soldering Workstand
MFR-WSDS	Desolder Workstand
WS1	Auto Sleeper Workstand
WS1CB	Solder Rework Cradle - Auto Sleep (Black)
AC-Y10	Yellow Sponge (pack of 10)
AC-BP	Brass Pad (pack of 10)

Sleeper Workstand

Lead Free Process Identification

For factories that are transitioning to lead-free, it is important to identify which processes are using lead free to avoid accidental cross-contamination of solder materials. To easily identify the lead-free processes, we have designed visual indicators that fit on the system parts where cross contamination can occur, such as tips & work stand sponges.

Lead-Free Workstand

LEAD-FREE IDENTIFICATION ACCESSORIES	
Part No.	Description
WS1CG	Green Solder Rework Cradle - Auto Sleep
AC-CK1	Green cartridge identification ring for MFR & PHT Consumables (Pack of 50)
AC-CK4	Green cartridge identification ring for SFV Power Tips (Pack of 50)

Lead-Free Identification Ring

Miscellaneous Accessories

MISCELLANEOUS ACCESSORIES	
Part No.	Description
AC-BRUSH-P	Soft Brass Brush
AC-CP2	Cartridge Removal Pad
AC-FX1	Fume Extraction Kit
AC-IK	Inter Locking / Mounting Kit
MFR-PM70	Power Meter

MFR DESOLDERING ACCESSORIES & MAINTENANCE TOOLS

Part No.	Description
AC-TC-P	Desoldering Tip Cleaner (Pack of 12)
AC-SK1	Front Seal
AC-VL	ESD Air Hose
AC-DFP	Chamber Liner, Filter & Fume
AC-PR1	Pump Re-build Kit
AC-PM1	Pump with Motor Replacement Kit
AC-CC	Solder Collection Chamber
MFR-HDCA	Desolder Coil Assembly
